

Customer Support Knowledge Base

Official Reference Document for AI-Powered Support System

Document Type	Knowledge Base / RAG Input Document
Product Family	NovaTech SmartDesk Pro, CloudSync, SecureVault
Version	1.0
Prepared By	NovaTech Support Operations Team
Review Cycle	Quarterly
Classification	Internal / System Use
Last Updated	June 2025

This document is the primary knowledge source ingested by the NovaTech RAG-based Customer Support Assistant. It contains product information, policies, troubleshooting guides, billing details, and escalation procedures required to answer customer queries accurately.

1. Company Overview

About NovaTech Solutions

NovaTech Solutions Pvt. Ltd. is a technology company founded in 2015, headquartered in Bengaluru, India, with regional offices in Mumbai, Delhi, and Hyderabad. The company specializes in productivity software, cloud storage services, and enterprise data security tools for small, medium, and enterprise businesses.

NovaTech serves over 120,000 registered customers across India, Southeast Asia, and the Middle East. Its product portfolio includes SmartDesk Pro (project management), CloudSync (file synchronization and backup), and SecureVault (encrypted document storage). The company has maintained an average customer satisfaction rating of 4.3 out of 5 over the past three consecutive years.

Contact and Support Channels

Channel Details	
Support Email	support@novatech.io
Toll-Free Number	1-800-NOVA-HELP (1-800-6682-4357)
Live Chat	Available on website, Mon to Sat, 9 AM to 9 PM IST
Help Center Portal	help.novatech.io
Registered Office	Block 7, Koramangala Tech Park, Bengaluru 560034

2. Product Catalog

SmartDesk Pro (NVT-SDP)

Category: Project Management Software

SmartDesk Pro is a cloud-based project and task management platform designed for teams of 2 to 500 members. It offers kanban boards, Gantt charts, milestone tracking, time logging, and real-time collaboration. SmartDesk Pro integrates with Google Workspace, Microsoft 365, Slack, and Jira. It is available on web browsers, Windows desktop, macOS, iOS, and Android.

Technical Specifications:

- Supported OS: Windows 10 and above, macOS 12 and above, iOS 15 and above, Android 10 and above
- Storage per workspace: 10 GB (Starter), 100 GB (Professional), Unlimited (Enterprise)
- Maximum team members: 5 (Starter), 50 (Professional), Unlimited (Enterprise)
- API access: Professional and Enterprise plans only
- Uptime SLA: 99.9 percent

CloudSync (NVT-CSY)

Category: Cloud File Synchronization and Backup

CloudSync provides automatic file backup and cross-device synchronization for individuals and businesses. It supports real-time sync across unlimited devices on a single account, version history up to 180 days, and selective sync for bandwidth management. CloudSync is compatible with Windows, macOS, and Linux

desktop clients as well as mobile apps.

Technical Specifications:

- Storage capacity: 100 GB (Basic), 1 TB (Plus), 5 TB (Business)
- Version history: 30 days (Basic), 90 days (Plus), 180 days (Business)
- Maximum linked devices: 3 (Basic), 10 (Plus), Unlimited (Business)
- File size limit per upload: 50 GB
- Encryption: AES-256 at rest, TLS 1.3 in transit

SecureVault (NVT-SVT)

Category: Encrypted Document Storage and Compliance

SecureVault is an enterprise-grade encrypted document repository built for regulated industries including finance, healthcare, and legal services. It provides end-to-end encryption, role-based access control (RBAC), audit logs, digital signatures, and compliance reporting for ISO 27001, GDPR, and India PDPB standards.

Technical Specifications:

- Encryption: AES-256 end-to-end with per-document keys
- Access control: RBAC with up to 20 permission levels
- Audit logs: Retained for 7 years
- Compliance: ISO 27001, SOC 2 Type II, GDPR, PDPB ready
- Maximum document size: 2 GB per file

3. Subscription and Pricing Plans

SmartDesk Pro Plans

Plan Price (INR / month) Users Storage Support				
Starter	INR 499	Up to 5	10 GB	Email
Professional	INR 1,499	Up to 50	100 GB	Email + Chat
Enterprise	Custom Pricing	Unlimited	Unlimited	Dedicated Manager

Note: All prices are exclusive of 18 percent GST. Annual billing offers a 20 percent discount.

CloudSync Plans

Plan Price (INR / month) Storage Devices Version History				
Basic	INR 199	100 GB	3	30 days
Plus	INR 599	1 TB	10	90 days
Business	INR 1,999 / user	5 TB	Unlimited	180 days

Note: Business plan pricing is per user per month with a minimum of 5 users.

SecureVault Plans

Plan Price (INR / month) Storage Users Audit Logs				
Professional	INR 2,999 / user	500 GB	Up to 25	1 year
Enterprise	Custom Pricing	Unlimited	Unlimited	7 years

Note: SecureVault Enterprise pricing requires a formal quote. Minimum contract term is 12 months.

Plan Upgrade and Downgrade Policy

Customers may upgrade their subscription plan at any time. The upgrade takes effect immediately, and the billing difference is prorated for the remaining days in the current billing cycle. Downgrading a plan takes effect at the start of the next billing cycle. If the current usage exceeds the limits of the lower plan at the time of downgrade, the customer must reduce usage before the downgrade is processed, or the request will be

placed on hold.

4. Account Management

Account Registration

New customers can register at app.novatech.io using a valid business or personal email address. Registration requires first name, last name, email address, phone number, and country of residence. A verification email is sent within 2 minutes of registration. The verification link is valid for 24 hours. If the link expires, the customer must request a new one from the login page.

Password Management

- Passwords must be at least 10 characters long and include one uppercase letter, one lowercase letter, one number, and one special character.
- Password reset links are sent to the registered email and are valid for 1 hour.
- After 5 consecutive failed login attempts, the account is temporarily locked for 30 minutes.
- Two-factor authentication (2FA) via SMS or authenticator app is available and recommended for all accounts.
- Customers cannot reuse their last 5 passwords during a reset.

Profile and Settings Update

Customers can update their display name, phone number, profile picture, and notification preferences from the Account Settings page. Email address changes require verification of the new email before taking effect. Timezone and language settings are available under Preferences.

Team and User Management

Account administrators can invite team members by entering their email addresses in the Team Members section. Invited users receive an email with a joining link valid for 72 hours. Administrators can assign roles including Owner, Admin, Editor, and Viewer. Role permissions are defined per workspace.

Role	Can Invite	Can Edit	Can Delete	Can Manage Billing
Owner	Yes	Yes	Yes	Yes
Admin	Yes	Yes	Yes	No
Editor	No	Yes	No	No
Viewer	No	No	No	No

Account Deletion

Customers may request account deletion by contacting support at support@novatech.io with subject line 'Account Deletion Request'. Upon verification of identity, the account and all associated data are permanently deleted within 30 days. This action is irreversible. Customers on active paid plans must cancel their subscription before requesting deletion. Any unused prepaid balance is refunded within 14 business days.

5. Billing and Payments

Accepted Payment Methods

- Credit and debit cards (Visa, Mastercard, RuPay, American Express)
- Net banking (all major Indian banks supported)
- UPI (Google Pay, PhonePe, Paytm, BHIM)
- NEFT / RTGS bank transfer (Enterprise plans only)
- Purchase Order (PO) billing (Enterprise plans only, 30-day credit terms)

Billing Cycle

Monthly subscriptions are billed on the same date each month, corresponding to the date of initial purchase. Annual subscriptions are billed once per year on the anniversary of the subscription start date. Invoices are automatically generated and emailed to the registered billing email address on each billing date. GST invoices include GSTIN of NovaTech Solutions (29AAACN0912H1ZX) and can be used for input tax credit claims.

Failed Payments

If a payment fails, the system retries automatically on Day 3 and Day 7 after the due date. Email notifications are sent after each failed attempt. If payment is not received by Day 7, the account is moved to a restricted state where data remains accessible in read-only mode but new content cannot be added. If payment is not received within 30 days of the due date, the account is suspended. Data is retained for 60 days after suspension before permanent deletion.

Invoices and Receipts

All invoices and payment receipts are available in the Billing section of the account dashboard. Customers can download invoices in PDF format for any transaction from the past 3 years. Invoice corrections such as GSTIN updates or company name changes must be requested within 30 days of the invoice date by emailing billing@novatech.io.

Promo Codes and Discounts

Code Discount Applicable Plan Validity			
NOVA20	20% off first 3 months	All plans	31 Dec 2025
SMB2025	15% off annual plan	Professional and above	30 Sep 2025
STARTUP10	10% off first month	Starter	31 Aug 2025

Note: Promo codes cannot be combined with each other. Only one code is applicable per transaction.

6. Product Troubleshooting Guide

6.1 SmartDesk Pro

Cannot log in to SmartDesk Pro

1. Verify that the correct email and password are being entered.
2. Check whether Caps Lock is enabled on the keyboard.
3. Clear browser cookies and cache, then try again.
4. If 2FA is enabled, ensure the authenticator code is entered within 30 seconds of it being generated.
5. If the account is locked due to failed attempts, wait 30 minutes or contact support to unlock it.

Tasks or boards are not loading

1. Check internet connectivity by opening another website.
2. Hard-refresh the page using Ctrl + Shift + R on Windows or Cmd + Shift + R on macOS.
3. Disable browser extensions, especially ad blockers, and try again.
4. Check the NovaTech Status Page at status.novatech.io for any ongoing incidents.
5. If the issue persists, clear browser local storage and try logging in again.

Notifications are not being received

1. Go to Account Settings and verify notification preferences are enabled.
2. Check the spam or junk folder in the registered email client.
3. Ensure browser notifications are allowed for app.novatech.io in browser settings.
4. Check whether the device's Do Not Disturb mode is active on mobile apps.

File attachments fail to upload

1. Verify the file size is within the 500 MB per file attachment limit for SmartDesk Pro.
2. Check the total workspace storage usage in Admin Settings and ensure the limit has not been reached.
3. Supported file formats are: PDF, DOCX, XLSX, PPTX, PNG, JPG, MP4, ZIP. Files in other formats will be rejected.
4. Retry the upload on a different browser or the desktop application.

6.2 CloudSync

Files are not syncing across devices

1. Ensure the CloudSync desktop client is running and not paused. Right-click the system tray icon to check.
2. Verify that the device is connected to the internet.
3. Check available local disk space. CloudSync requires at least 2 GB of free local space to operate.
4. Log out of the desktop client and log back in to re-establish the sync connection.
5. If selective sync is enabled, verify the folder containing the files is included in the sync selection.

Deleted files are not in the CloudSync Trash

1. Files deleted from a device are moved to CloudSync Trash and retained for 30 days on Basic, 90 days on Plus, and 180 days on Business plans.
2. Log in to the web portal at sync.novatech.io and check the Trash section.

3. Files permanently deleted from Trash cannot be recovered. Contact support only if the deletion was unintended and within the retention window.

Sync speed is very slow

1. CloudSync applies bandwidth throttling by default to avoid disrupting other applications. Adjust throttle settings in the client preferences.
2. Large file uploads and syncs are prioritized in the order they are queued. Do not close the client during a large upload.
3. Sync speed depends on the upload speed of the internet connection. Use a wired connection for better throughput.

6.3 SecureVault

SecureVault issues related to encryption keys, access control failures, or compliance reporting errors must be reported directly to the enterprise support line at enterprise@novatech.io. Standard troubleshooting steps for login and document upload failures are the same as described for SmartDesk Pro above. Audit log download failures should be attempted after 10 minutes as log generation may be in progress for large accounts.

7. Return, Refund, and Replacement Policy

Refund Eligibility

NovaTech Solutions offers refunds under the following conditions. All refund requests must be submitted via support@novatech.io or through the Help Center portal. Refunds are processed within 7 to 14 business days to the original payment method.

Scenario Eligible Refund Amount Time Limit			
Accidental duplicate purchase	Yes	Full refund	Within 7 days
Service not available for 24+ hours (SLA)	Yes	Prorated credit	Per SLA terms
Plan downgrade after billing	No	Not applicable	N/A
Feature dissatisfaction	No	Not applicable	N/A
Annual plan cancelled within 30 days	Yes	Prorated refund	Within 30 days of purchase
Annual plan cancelled after 30 days	No	Not applicable	N/A
Charged incorrectly due to system error	Yes	Full corrected refund	Within 60 days

Non-Refundable Items

- Setup fees and onboarding fees for Enterprise plans are non-refundable.
- Add-on storage purchased separately is non-refundable once the storage has been used.
- Custom development or integration work ordered under an Enterprise agreement is non-refundable.
- Promo code discounts are applied to the final invoice value and do not affect refund calculations.

Hardware Replacement (NovaTech USB Key for SecureVault)

Certain SecureVault Enterprise customers receive a physical NovaTech USB Security Key for hardware-based 2FA. If the device is defective on arrival, customers must report the issue within 10 days of receipt. A replacement is shipped within 5 business days at no cost. Loss or physical damage caused by the customer is not covered and a replacement can be purchased for INR 1,499 per unit. Shipping charges for replacement hardware apply as per actuals.

8. Service Level Agreement (SLA)

Uptime Commitment

NovaTech commits to the following monthly uptime availability for each product. Uptime is measured on a calendar month basis and excludes scheduled maintenance windows, which are communicated at least 72 hours in advance via email and the Status Page.

Product Plan Uptime SLA Measurement Window			
SmartDesk Pro	Starter	99.5%	Monthly
SmartDesk Pro	Professional	99.9%	Monthly
SmartDesk Pro	Enterprise	99.95%	Monthly
CloudSync	Basic	99.5%	Monthly
CloudSync	Plus	99.9%	Monthly
CloudSync	Business	99.95%	Monthly
SecureVault	Professional	99.9%	Monthly
SecureVault	Enterprise	99.99%	Monthly

SLA Breach and Compensation

In the event that monthly uptime falls below the committed SLA, customers are eligible for service credits applied to the next billing cycle. Credits are calculated as follows:

Actual Uptime Credit	
Below SLA but above 99.0%	10% of monthly fee
Between 95.0% and 99.0%	25% of monthly fee
Below 95.0%	50% of monthly fee

Note: Service credits are the sole remedy for SLA breaches. Claims must be submitted within 30 days of the breach. Credits are non-transferable and non-redeemable as cash.

Support Response Time SLA

Priority Description First Response Resolution Target			
P1 Critical	Full service outage affecting all users	30 minutes	4 hours

Priority Description First Response Resolution Target			
P2 High	Major feature unavailable, significant impact	2 hours	8 hours
P3 Medium	Feature degraded, workaround available	8 hours	48 hours
P4 Low	General query, cosmetic issue, feature request	24 hours	5 business days

9. Frequently Asked Questions (FAQ)

9.1 General

Q What is NovaTech's free trial policy?

A SmartDesk Pro and CloudSync both offer a 14-day free trial on the Professional plan with no credit card required. SecureVault offers a 7-day trial for up to 5 users on the Professional plan. Trials do not automatically convert to paid plans. Customers must actively subscribe before the trial ends to continue using the service.

Q Can I use NovaTech products on multiple devices?

A SmartDesk Pro web application can be accessed from any browser on any device. The mobile app supports up to 5 devices per user account. CloudSync allows 3 devices on Basic, 10 on Plus, and unlimited on Business. SecureVault supports access on any web browser and does not have a device limit.

Q Does NovaTech offer a student or non-profit discount?

A Yes. Verified educational institutions and registered non-profit organizations are eligible for a 40 percent discount on SmartDesk Pro Professional and CloudSync Plus plans. To apply, send a request to discounts@novatech.io with valid proof of institutional status. Approval takes 5 to 7 business days.

Q Is there a mobile application available?

A SmartDesk Pro has native apps for iOS (App Store) and Android (Google Play Store). CloudSync has apps for iOS and Android as well. SecureVault does not currently have a dedicated mobile app but is accessible via mobile browsers.

9.2 Billing and Account

Q How do I cancel my subscription?

A Log in to your account and go to Settings, then Subscription, then click Cancel Subscription. Follow the steps to confirm. Cancellation takes effect at the end of the current billing period. You will continue to have full access until that date. Data is retained for 60 days after the end of the billing period before being deleted.

Q Can I switch from monthly to annual billing?

A Yes. You can switch from monthly to annual billing at any time. The annual plan rate applies from the next billing date. You will receive a prorated credit for any days remaining on the current monthly cycle. Annual subscriptions are not refundable after the first 30 days.

Q My payment failed but I was still charged. What should I do?

A Contact our billing team immediately at billing@novatech.io with your registered email address and the transaction reference number visible in your bank statement. Our team will investigate within 2 business days and initiate a reversal if a duplicate charge is confirmed.

Q How do I update my billing email address?

A Go to Settings, select Billing, and click Edit Billing Information. Update the billing email address and save. All future invoices will be sent to the updated address. Previously sent invoices are not resent automatically but are available for download in the Billing section.

9.3 Technical

Q What browsers are supported?

A NovaTech products support the latest two stable versions of Google Chrome, Mozilla Firefox, Microsoft Edge, and Apple Safari. Internet Explorer is not supported. It is recommended to keep the browser updated for optimal performance and security.

Q Does NovaTech offer an API?

A SmartDesk Pro REST API is available for Professional and Enterprise plan customers. API documentation is available at developers.novatech.io. Rate limits are 1,000 requests per hour for Professional and 10,000 requests per hour for Enterprise. CloudSync offers an API for Business plan customers for automated backup workflows. SecureVault API is available for Enterprise customers only.

Q How does NovaTech ensure data security?

A All data is encrypted in transit using TLS 1.3 and at rest using AES-256 encryption. NovaTech data centers are ISO 27001 and SOC 2 Type II certified. SecureVault applies per-document encryption keys and all keys are managed using a hardware security module (HSM). NovaTech conducts quarterly penetration testing and publishes results in its Security Transparency Report available at security.novatech.io.

Q What happens to my data if I cancel my subscription?

A Your data remains accessible in read-only mode for 60 days after subscription end. During this period you can download your data. After 60 days, all data is permanently deleted from NovaTech servers. NovaTech does not sell customer data to third parties at any time.

10. Escalation and Human Support Procedures

When Escalation is Triggered

The NovaTech support system escalates a customer query to a human support agent under the following conditions:

- The automated system cannot find relevant information to answer the query.
- The customer explicitly requests to speak with a human agent.
- The query involves a financial dispute, refund over INR 10,000, or legal matter.
- The issue has been unresolved for more than 48 hours despite automated responses.
- The customer has submitted the same query more than 3 times without resolution.
- The query contains account security concerns such as suspected unauthorized access.
- The system confidence score for a generated answer is below 0.65.

Escalation Workflow

Step 1: Customer query is received and processed by the AI support assistant.

Step 2: If escalation criteria are met, the system flags the conversation with a priority level.

Step 3: A support ticket is automatically created in the NovaTech helpdesk system (Freshdesk) with full conversation history.

Step 4: The customer receives an immediate acknowledgment message with a ticket reference number.

Step 5: A human agent is assigned based on query category, agent availability, and priority level.

Step 6: The agent reviews the conversation history and responds within the SLA response time for the assigned priority.

Step 7: If the agent resolves the query, the ticket is closed and a satisfaction survey is sent to the customer.

Step 8: If the agent cannot resolve the issue, it is escalated to Tier 2 support or the relevant product engineering team.

Human Agent Support Hours

Support Tier Availability Contact Method		
Tier 1 General Support	Mon to Sat, 8 AM to 10 PM IST	Chat, Email, Phone
Tier 2 Technical Support	Mon to Fri, 9 AM to 7 PM IST	Email, Phone
Enterprise Dedicated	24 hours a day, 7 days a week	Dedicated Manager + Hotline
Emergency Security	24 hours a day, 7 days a week	security@novatech.io + Hotline

Post-Escalation Feedback

After a ticket is closed, customers receive a feedback survey asking them to rate their experience on a scale of 1 to 5 and provide optional written comments. Survey responses are reviewed weekly by the Support Operations team. Tickets rated 1 or 2 are automatically reviewed by the Support Manager within 2 business days. Insights from feedback are used to update this knowledge base document and improve the AI support

assistant's responses.

11. Glossary of Terms

Term Definition	
RAG	Retrieval-Augmented Generation. An AI architecture that combines a retrieval system with a language model to generate answers grounded in a specific knowledge base.
LangGraph	An open-source framework for building stateful, multi-step AI workflows using graph-based execution with nodes and edges.
ChromaDB	An open-source vector database used for storing and querying document embeddings efficiently.
Embedding	A numerical vector representation of text that captures semantic meaning, allowing similarity-based search across a document corpus.
HITL	Human-in-the-Loop. A system design pattern where a human agent is included in the workflow to handle cases that the automated system cannot resolve.
Chunking	The process of splitting a large document into smaller segments (chunks) to improve retrieval accuracy during vector search.
Vector Store	A database optimized for storing and querying high-dimensional vectors, typically used for semantic search in AI systems.
SLA	Service Level Agreement. A contractual commitment defining minimum service quality metrics such as uptime and support response times.
RBAC	Role-Based Access Control. A method of restricting system access based on roles assigned to individual users.
2FA	Two-Factor Authentication. A security method requiring two forms of identity verification before granting access to an account.
GST	Goods and Services Tax. Indirect tax applied to products and services in India at 18 percent for SaaS subscriptions.
GSTIN	Goods and Services Tax Identification Number. Unique identifier assigned to businesses registered under GST in India.
AES-256	Advanced Encryption Standard with 256-bit key length. Industry standard symmetric encryption algorithm used for data at rest.
TLS 1.3	Transport Layer Security version 1.3. Protocol for encrypting data in transit between client and server.
ISO 27001	International standard for information security management systems (ISMS).
SOC 2 Type II	Service Organization Control 2 audit report verifying that a company's security controls are effective over a period of time.
P1 to P4	Priority levels assigned to support tickets. P1 is the most critical (full outage) and P4 is the lowest (general query).
PDPB	Personal Data Protection Bill. India's data protection regulation framework governing the handling of personal data.

Term Definition	
Prorated	Billing adjustment calculated proportionally based on the number of days remaining in a billing period.
Freshdesk	Third-party helpdesk software used by NovaTech to manage, track, and resolve customer support tickets.

This document is the official knowledge base input for the NovaTech RAG-Based Customer Support Assistant. It is maintained by the Support Operations team and reviewed quarterly. For corrections or additions, contact ops@novatech.io.
